MultiLit Programme
Learning support for Year 3 - 7 students

What is the programme?
The ‘Making Up Lost Time in Literacy’ or ‘MultiLit’ is a literacy intervention programme designed for low progress readers in Year 3 - 7.

The efficient programme includes structured lessons, delivered by a MultiLit Coordinator to individual students 3-4 times per week. The programme includes three main components:
• Word Attack- Phonics
• Sight Words
• Reinforced Reading

Students progress is monitored through ongoing testing and evaluation. At the beginning of each term, students complete a pre-test and at the completion of the term, a post-test. These results are analysed to see improvements made and to identify areas for further improvement.

How will it benefit my child?
Students identified for MultiLit benefit from this specialised programme in a number of ways:
• Increased knowledge of phonemic awareness, phonics, fluency, vocabulary and comprehension.
• Learning strategies for tackling unfamiliar words and sounds.
• Improved text fluency and understanding through automatic recognition of sight words.
• Working one-on-one with the MultiLit Coordinator, students experience individual attention and together build a strong relationship.
• Continual growth in confidence as they gain new understanding which can then be applied to work in the classroom.

Who can I talk to for more information?
Louise Richards
Special Education Coordinator
P: 08 8633 8862
E: lrichards@stmarkspirie.catholic.edu.au
